EDITOR'S NOTE

In the previous issue of the magazine we offer brief information about II International Science Conference Knowledge Society and III International Science Conference for Young Researchers "Technical Science and Industrial Management", held in Nessebar, Bulgaria in the period 2-4 September 2009. According to the programme more than 80 scientific papers were presented at the conference from scientists from Bulgaria, Romania, Poland, Hungary, Ukraine, Lithuania, Latvia, Austria, Morocco, Macedonia, Czech Republic, Slovakia, representing more than 20 universities and Research and Development Centers.

Scientific conferences were held in accordance with the indicative programme, with numerous participants and thorough discussions. It is necessary to note the great number of scientific materials, created and provoked useful and interesting debates. The research papers of young scientists were another special feature of these two conferences.

As a result of high scientific level of the papers, presented in the conference and the scientific interest, The Editorial Board took decision to publish the best from the papers in the previous and the present issues of the magazine. All scientific papers were put under independent review from two persons with academic rank. They selected most valued scientific papers.

In the previous issue of the KSI Transactions on Knowledge Society we published 30 scientific papers from scientific section Knowledge Management. In the present issue we publish scientific papers, connected to the actual questions posed from the Knowledge Economy.

Editorial Board express gratitude to the reviewers for their qualitative and thorough work.

Editorial Board
